

## THE CRITERIA FOR THE SCIENTIFIC ARTICLES

Materials are accepted with the recommendation or opinion of the specialist of the relevant universities' chairs, divisions of scientific-research institutions. The articles must concern to the field of Law and in special cases should be as scientific-practical studies of high value.

It is necessary to attach to the material the title of the article, summary within at least 60 words, information about author and key words [at least: five words] in English and Russian.

While deciding the content of the materials, please take into consideration the following criteria:

- The text is typed on the serial paper with the format A4 with 1.5-line spacing,
- The size of the main text's letters-12,
- the size of the letters of the citation, mentioned below in the text-10,
- Left, right, below and below indents-2 cm,
- Unicode Font-Arial Unicode,
- Russian and English texts: with the font of Times New Roman.

If you use normative acts, you should mention its type, date of acceptance, name.

You may mention type, date and abbreviated name of the act without inverted commas, which gives correct idea about document.

Below the title on the first page of material, the information about author must be mentioned and which will be published in our magazine:

- the whole name, surname of the author,
- workplace and position, if available,
- scientific degree and rank.

Scientific articles are used to be presented at least within framework of 15 pages.
